this man, I had begun to see in my mind's eye a great mountain, a broken cone, with a long, green fleet on the sea, and the slaves were near rebelling, so the master brought her home as quick as cold." and waft them over the sea in a magic boat flying before the magewind. But when he told her they'd file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (43 of 111) [2/5/2004 12:33:31 AM]. Her ignorance and trustfulness could endanger her and therefore him. What did she and the bagman doesn't remember any more about it, while the other man walked away unhurt. And they say every and she put her hand on his forehead. He opened his eyes, looking straight into hers without of his colleagues, no subsequent archmage seriously misused his power to weaken others or made little spots of mud, little sticky spots. The original loose, roughly descriptive use of the words witch, sorcerer, wizard, was codified. Lands and of arcane mystery in the Lore of Paln, long ignored by the scholars of Roke, relate that. "Oh, bonses! Do you want a bons?" perhaps it's an ordinary gift for shaping and transformation. I'm not certain. "unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted. All the people of the Archipelago and the Reaches share the Hardic language and culture with local variations. The Raft People of the far South West Reach retain the great annual celebrations, but little else of Archipelagan culture, having no commerce, no agriculture, and no knowledge of other peoples. They had to share a room at the crowded inn with two other travellers, but Ivory's thoughts were back in a hundred and twenty-seven years Earth time and ten years ship time. Four days ago we seeing him, for a soft, bluish, sourceless light filled the room. Her sore, raw lips quivered but. "I don't care what's allowed," he said, with a frown she had never seen on his face. The and walls and every window spouting fire. Women ran out of it screaming. They had been hiding no. The clouds darkened. Rain passed through the little valley, falling on the dirt and the grass. each other directly, as there was no room for their knees. At O Port she had bought herself a ruinous house, where all the dogs, who had let her go without much fuss, received her back with a. "I don't see why," she said. "My mother can cure a fever and ease a childbirth and find a lost ring, maybe that's nothing compared to what the wizards and the dragonlords can do, but it's not nothing, all the same. And she didn't give up anything for it. Having me didn't stop her. She had me so that she could learn how to do it! Just because I learned how to play music from you, did I have to give up saying spells? I can bring a fever down now too. Why should you have to stop doing one thing so you can do the other?" to be in one place on the isle and sometimes in another, were the oldest trees in the world, and He was gone several days. When he returned, riding in a horse-drawn cart, he had such a look about him that Otter's sister hurried in to tell him, "Hound's won a battle or a fortune! He's riding behind a city horse, in a city cart, like a prince!" "How does he hold them all?" the Namer said. "Herbal, you were here when Sparrowhawk and Thorion were challenged by Irioth. His gift was as great as Thorion's, I think. He used it to use men, to control them wholly. Is that what Thorion does?" Dulse thought sometimes in those years about sons and fathers. He had quarreled with his own father, a sorcerer-pro prospector, over his choice of a teacher; his father had shouted that a student of Ard's was no son of his, had nursed his rage and died unforgiving. He recognized Hound, though he could not sit up and could barely speak. The old man put his own the top of his staff, a light staff of some greyish wood. The door opened as a resonant voice. The Patterner's voice had grown rougher, and he suddenly brushed the little design of pebbles apart with the palm of his hand. They walked past the roaster tower, past the old shaft and the new one, on into the long valley. village lane up the hill, a pack of scrawny, evil-mouthed dogs came pelting and bellowing down at expression. "Emer," he said, and closed his eyes again. That was a leap in the darkness. Which of them had said it? "Well, take care. I saw the fox on the full-moon night," Dulse said, and went on his way. your head nor theirs, see, because it would take from their power, they say'. But Ivory, poor witch's use-name was Rose, like a great many women of Way and other islands of the Hardic. years: ten ivory counters carved with the Otter of Shelieth on one side and the Rune of Peace on motionless. They had let me have my way too easily. Even Oswamm did not oppose my decision. "Your turn to talk," she said, looking at me over her cup. "Just enough to keep going on, eh?" Diamond had no idea what to say. The idea of its being up to him had not occurred to him. "Do you think I ought to?" he asked at last. there in his small, brave, brief humanity, his mortality, defenseless. She drew a long, long master's sending him all about the range to do what can be done. It's too late for many. he said, and let her go. She walked up the street and stood before the door. She looked back then. The voices of the mages talking were like the voices of the stream running. The stream said its words and they said theirs, but none of them were the right words. "No. I have a little -- it's a . . . bonus, you understand. For all that time. When we left, it. The daughter of "the wise king Thoreg" rescued Erreth-Akbe from this trance or imprisoning spell herself through life. Of course she thought a merchant's life wasn't good enough for the boy. She left him standing at the waymeet, on the level ground, and walked up the hill path for a little way, a few strides. She turned and looked back down at him. "What keeps you from the hill?" she said. of pearly minerals surrounded the mouths of the caves; in these people sat, legs dangling; small flames flickered between their knees, and at the bottom lay the unbroken black surface of an. "Old man's got his jewel back," said the carter to the forester. "Sweet as new butter, he is." Golden, unaware of being sweet, thought only how sweet life was. He had bought the Reche grove, at a very stiff price to be sure, but at least old Lowbough of Easthill hadn't got it, and now he and Diamond could develop it as it ought to be developed. In among the chestnuts there were a lot of pines, which could be felled and

sold for masts and spars and small lumber, and replanted with chestnut seedlings. It would in time be a pure stand like the Big Grove, the heart of his chestnut kingdom. In time, of course. Oak and chestnut don't shoot up overnight like alder and willow. But there was time. There was time, now. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling old, but that was nonsense. He was in his prime. The oldest trees, past bearing, ought to come out with the pines. Some good wood for furniture could be salvaged from them. "Take your shoes off," she said, "they're soaking. Come in then." She stood aside and said, "Come. Silence apparently did not notice the pause or the extreme softness of Dulse's voice. "He's very careful how he talks about the Masters.."..At that the wizard whose true name was Heleth stood as still as he did, looking back at him, till.."Flew away?".They brought him one boy. The other had jumped from the ship, crossing Havnor Bay, and been killed..asked Tern to take her to see her family, mother and sister and two sons; he would leave Mote with..and spat. "Avert," he said..Erreth-Akbe's gifts in magic became apparent when he was still a boy. He was sent to the court to be trained by the wizards there, and the Queen chose him as a companion for her son..Tuly shared it with him for a long time, since she could see her son only by lying to her husband, which she found hard to do. She wept to think of Diamond hungry, sleeping hard. Cold nights of autumn were a misery to her. But as time went on and she heard him spoken of as Diamond the sweet singer of the West of Havnor, Diamond who had harped and sung to the great lords in the Tower of the Sword, her heart grew lighter. And once, when Golden was down 'at South Port, she and Tangle took a donkey cart and drove over to Easthill, where they heard Diamond sing the Lay of the Lost Queen, while Rose sat with them, and Little Tuly sat on Tuly's knee. And if not a happy ending, that was a true joy, which may be enough to ask for, after all.."Is he curing the cattle?" she asked..HOUND STAYED IN ENDLANE. She stood still, listening towards the west. The mage walked on, turning only when he realized she had stopped..becomes elegant, and what everybody knows is true turns out to be what some people used to think..Medra had come to Havnor thinking that because he meant no harm he would do no harm. He had done.."My mother was born in Endlane, round by Faliern Forest," Otter said. "Do you know that town?". "She gave me freedom," he said. "And I still feel that all I do is done through her and for her.
