Harry Spinner wasn't much use to anyone, not even himself, but I liked him. He'd helped me in a couple. Afterward, Ike and I stopped in The Fig Leaf for a couple of beers. Ike seemed worried. "Do you think he really has our best interests at heart, Jake?" he asked. "I'm going to cut her out, Matthew," Amanda's voice said from above me. It was tow but trembling. He gestured her back. Nina's smile faded and she made a sound in her throat, a little gasp of. But for those with conventional pets we should mention. He turned toward the suitcase, his back to me. The hump was artificial, made of something like foam rubber. He unhooked the straps, opened the suitcase, and tossed the hump in. He said something, too soft for me to catch, and lay face down on the couch with his feet toward me. The light from the opened curtain fell on him. His back was scarred, little white lines like scratches grouped around a hole. They have to leave in six months, as I understand it, because of the orbital elements, but in that time... The whole world has been at peace for more than a generation. Crime is almost unheard of. Free energy has made the world rich, but the population is stable, even though early detection has wiped out most diseases. Everyone can do whatever he likes, providing his neighbors would not disapprove, and after all, their views are the same as his own. Source: W.S. Halson. The image that so held his attention was transmitted from an eighteen-inch-long, infantry reconnaissance that they had managed to slip in a thousand feet above the floor of the gorge and almost over the enemy's forward positions and was supplemented by additional data collected from satellite and other ELINT network sources. The display showed the target command bunker at the bottom of the gorge, known enemy weapons emplacements as computed from backplots of radar-tracked shell trajectories, and the locations of observation and fire command posts from source analysis triangulations of stray reflections from control lasers. On it the cool water of the stream and its tributaries stood out as black lines forking like twigs; the rock crags and boulders were shades of blue; living vegetation varied from rust brown on the hills to deep red where it crowded together along the lower slopes of the gorge; and shell and bomb scars glowed from dull orange to yellow depending on how recently the explosions had occurred. 254. 12. They were not anxious to get back to the task that had occupied them for the last two weeks: that of bringing the Podkayne to a horizontal position without wrecking her. The ship had been rigged with stabilizing cables soon after landing, and provision had been made in the plans to lay the ship on its side in the event of a really big windstorm. But the plans had envisioned a work force of twenty, working all day with a maze of pulleys and gears. It was slow work and could not be rushed. If the ship were to tumble and lose pressure, they didn't have a prayer.. "We have been studying this problem for some time now, and we believe there is a solution. It would not be feasible to send a contingent of adult humans, either as a functioning community or in some suspended sate, with the ship; it is in too advanced a stage of construction to change its primary design parameters. But then, why send adult humans at all?" He. spread his arms appealingly. "After all, the objective is simply to establish an extension of our race where it would be safe from any calamity that might befall us here, and such a location would be found only at the end of the voyage.
