Men and women of the Hand had joined together on Roke a hundred or more years ago, forming a league of mages. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and rewoven by the wise women of the island, and had no commerce with any other people. "We can't save them," Ember said. "We couldn't save ourselves." "Hah!" said Golden. "Well! I will say I'm glad of it, son." He ate a small porkpie in one mouthful. "Being a wizard, going to Roke, all that, it never seemed real, not exactly. And with you off there, I didn't know what all this was for, to tell you the truth. All my business. If you're here, it adds up, you see. It adds up. Well! But listen here, did you just run off from the wizard? We can send to them a voice or a presentment, a seeming, of ourself. But we do not summon them, in spirit or in flesh, to come to us. Only the dead may we summon. Only the shadows. You can see why this must be. To summon a living man is to have entire power over him, body and mind. No one, no matter how strong or wise or great, can rightly own and use another. not led him here. So you've sent them digging for the Red Mother, have you? Did you know the Red Mother before you came here? Are you a courtier of the King? Here, now, there's no need for ropes and knots." Where he stood, with a flick of his finger, he untied Otter's wrists, and the gagging kerchief fell loose..fifty or sixty years earlier..He looked up. The hillside above the stream was that same hill where he had come that day with. There was not much to be got from the people his men brought to him. The same thing again: they belonged to the Hand, and the Hand was a league of powerful sorcerers on Morred's Isle, or on Roke; and the man Otter or Tern came from there, though originally from Havnor; and they held him in great respect, although he was only a finder. The sister had vanished, perhaps gone with Otter to Endlane, where the mother lived. By the time he opened the door of Master Hemlock's house he was reciting lists of names, or wondering what would be for dinner, for he was hungry most of the time. They put their arms round each other in a fierce, long embrace. Then they hurried on, the witch to her hut near the village, the heiress of Iria up the hill to her ruinous house, where all the dogs, who had let her go without much fuss, received her back with a clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden drunk by his cold hearth.
