

THE TREATMENT OF DISEASES BY THE HYPODERMATIC METHOD

Although the Rolex was expensive, Junior cared nothing about the monetary loss. He could afford to buy an armful of Rolexes, and wear them from wrist to shoulder. Charmed by the vulnerability of the young, he'd never slept with an older woman. The prospect intrigued him. She would have tricks in her repertoire that younger women were too inexperienced to know. Bellini assured Celestina that they didn't expect Enoch Cain to be so brazen as to follow police vehicles and to renew his assault on her at St. Mary's. Nevertheless, he assigned a uniformed police officer to the hall outside of the waiting room that served friends and family of the patients in the intensive-care unit. And judging by that guard's high level of vigilance, Bellini had not entirely ruled out the possibility that Cain might show up here to finish what he started in Pacific Heights. Looking down at Barty, Agnes saw the ghost of Joey in the baby's face, and although she half believed that her husband would be alive now if he had never tempted fate by putting such a high price on his wife, she couldn't find any anger in her heart for him. She must accept this final generosity with grace-if also without enthusiasm. The only light came from a reading lamp. An adjustable brass shade directed the light down onto a chair. "It was... the only dream that mattered," Joey said. "You ... loving me. It was a good life because of you." "He's not a real contemporary person, not anyone Cain needs to fear. So how did he develop this obsession with finding someone named Bartholomew?" He met Celestina's eyes, as if she might have answers for him. "Is there a real Bartholomew? And how does this tie in with his assault on you? Or is there any tie-in at all?" About ten feet from the trunk of the oak, Barty departed his straight route and began to circle the tree. One of the paramedics had stooped beside him to press a cool hand against the nape of his neck. Now this man said urgently, "Kenny!" He came through the surgery well. He'll be in post-op for a while, then brought here to the ICU. His condition's critical, but there are degrees of critical, and I believe we'll be able to upgrade him to serious long before this day is over. He's going to make it." Paul pulled her back. He gently but firmly thrust her through the open door of the guest room in which he'd spent the night. "Stay here, wait." "I don't have to graduate in the spring of next year. I can take fewer classes, graduate the spring after. That's no big deal." "Well," Kathleen said, "even if the money wasn't so nice, I'd be sorry to see this case end." The Bones of the Earth. Nevertheless, his sense of violation grew as he paced these now songless rooms, mystified and frustrated. On April 19, the unmanned Surveyor 3, after landing on the lunar surface, began transmitting photos to Earth, and when Junior stepped out of his morning shower, he again heard the eerie singing, which seemed to arise from a place more distant, more alien, than the moon. Never had the familiar red Bicycle design of the U.S. Playing Card Company looked ominous before, but it was fearsome now, as strange voodoo veve or satanic conjuration pattern. All he cared about was Red Planet, and what might happen after page 103. He had carried the book with him to the doctor's office, and on the way home in the car; he repeatedly opened it, squinting at the lines of type, trying to read around or through the "twisty" spots. "Jim and Frank and Willis, they're in deep trouble." Trying to ignore his phantom toe, which itched furiously, he searched the apartment. He proceeded carefully, determined not to shoot himself in the foot accidentally this time. Suddenly remembering the doctor's assurance to Neddy that they would be out of this building by week's end, Celestina said, "But we've nowhere to go." Her mouth was as greedy as it was ripe, and her pliant body radiated volcanic heat, and as Junior slipped his hands under her skirt, his mind teemed with thoughts of sex and wealth and power, until he discovered that the heiress was an heir, with genitalia better suited to boxer shorts than to silk lingerie. KATHLEEN IN THE candlelight, her ginger eyes a glimmer with images of the amber flame. Icy martinis, extra olives in a shallow white dish. Beyond the tableside window, the legendary bay glimmered, too, darker and colder than Kathleen's eyes, and not a fraction as deep. "Even when I was a young boy," Tom continued, "the world felt a lot different to me from the way it looked to other people. I don't mean I was smarter. I've got maybe a little better than average IQ, but nothing I could brag about. Flunked geography twice and history once. No one would ever confuse me and Einstein. It's just, I felt ... such complexity and mystery that other people didn't appreciate, such layered beauty, layers upon layers like phyllo pastry, each new layer more amazing than the last. I can't explain it to you without sounding like a holy fool, but even as a boy, I wanted to serve the God who had created so much wonder, regardless of how strange and perhaps even beyond all understanding He might be." Certain that he was overreacting, Tom nevertheless left the kitchen as a cop, not a priest, would leave it: staying low, knife thrust in front of him, clearing the doorway fast. To the foot of the bed slouched the third and final Hackachak: twenty-four-year-old Kaitlin, Naomi's big sister. Kaitlin was the unfortunate sister, having inherited her looks from her father and her personality equally from both parents. A peculiar coppery cast enlivened her brown eyes, and in a certain slant of light, her angry glare could flash as red as blood. In the neatly ordered bedroom, he removed his shoes. Stretching out on the bed, he stared at the ceiling, feeling useless. She herself had been too nervous to eat anything. She'd held the same glass of untasted champagne throughout the evening, clutching it as though it were a mooring buoy that would prevent her from being swept away in a storm. SHORTLY BEFORE one o'clock, the Hackachaks descended in a fury, eyes full of bloody intent, teeth bared, voices shrill. Junior worried that he might not locate the correct Dumpster among the many. Yet he didn't switch on the flashlight, suspecting that he would be better able to find his way if the conditions of darkness and fog were exactly as they had been earlier. In fact, this proved to be the case, and he instantly recognized the hulking Dumpster when he came upon it. During the past week, he had ferreted out what he could about the nurse. She was thirty, divorced, without kids, and lived alone. For a spirit, the maniac lawman appeared disturbingly solid. He wore a tweed sports jacket and slacks that, as far as Junior could tell, were the same clothes he'd worn on the night he died. Apparently, even the ghosts of Sklent's atheistic spiritual world were stuck for eternity in the clothes in which they had perished. Clinging to the desperate hope of an

ultimate reunion, he put the gun away, went to the kitchen, and made a grilled-cheese sandwich: cheddar, with dill pickles on the side..Tom didn't know what to make of this bit of information, so he said, "That's a lot."The dining room again, but this time he remembered how he had gotten here: by way of the living room..OUR LADY OF SORROWS, quiet and welcoming in the Bright Beach night, humble in dimension, without groin vaults and grand columns and cavernous transepts, restrained in ornamentation, was as familiar to Maria Elena Gonzalez--and as comforting-as her own home. God was everywhere in the world, but here in particular. Maria felt happier the instant she stepped through the entrance door into the narthex..Barty turned away from her, surveyed the kitchen, and said, "Ah. The twisty is me."Without a word, Joshua Nunn and the paramedic retreated to the foyer. The parlor doors slid shut..Junior had heard of this invention, but until now he'd never seen one. He supposed that an obsessive like Vanadium might go to any lengths, including this exotic technology, to avoid missing an important call..When he came to himself, sick and weak from the poison and with an aching skull, he was in a room with brick walls and bricked-up windows. The door had no bars and no visible lock. But when he tried to get to his feet he felt bonds of sorcery holding his body and mind, resilient, clinging, tightening as he moved. He could stand, but could not take a step towards the door. He could not even reach his hand out. It was a horrible sensation, as if his muscles were not his own. He sat down again and tried to hold still. The spellbonds around his chest kept him from breathing deeply, and his mind felt stifled too, as if his thoughts were crowded into a space too small for them..With the uniformed troopers was a stocky, late-fortyish, brush-cut man in black slacks and a gray herringbone sports jacket. His face was almost pan flat, his first chin weak, his second chin stronger than the first, and his function unknown to Junior. He would have been the least likely man to be noticed in a ten-thousand-man convention of nonentities, if not for the port-wine birthmark that surrounded his right eye, darkening most of the bridge of his nose, brightening half his forehead, and returning around the eye to stain the upper portion of his cheek..The sirens shrieked so loud that he felt a sympathetic vibration in his dental fillings, and with a sharp cry of brakes, a great red truck turned the corner, at once followed by a second..Immediately at the thought of regurgitation, his abdominal muscles contracted like those of a laboratory frog zapped by an electric current, and he choked on a rising horror..He intended to mash the sole of Victoria's right shoe in the pat of butter and leave a long smear on the floor, as though she slipped on it and fell toward the ovens..To achieve certain narrative effects, I've fiddled slightly with the floor plan and the interior design of St. Mary's Hospital in San Francisco. In this story, the characters who work at St. Mary's are fictional and are not modeled after anyone on the staff of that excellent institution, either past or present..Already another contraction racked her, so intense that the pain was not limited to her lower back and abdomen, but seared the length of her spine, like an electric current leaping vertebra to vertebra. Her breath pinched in her chest as though her lungs had collapsed..Only one member of the distant funeral party did not disperse toward the line of cars on the service road. A man in a dark suit headed downhill, between the headstones and the monuments, directly toward Naomi's grave.."Of all the things I might be meant to do with my life," he told Agnes, "I believe nothing will matter more than the small part I've had in bringing together these two children."In the dark dumpster, tormented by ceaseless torrents of what-ifs, convinced that the spirit of Vanadium was going to slam the lid and lock him in with a revived corpse, Junior had for a while been reduced to the condition of a helpless child. Paralyzed by fear, withdrawn to the corner of the dumpster farthest from the putrefying pianist, squatting in trash, he had shaken with such violence that his castanet teeth had chattered in a frenzied flamenco rhythm to which his bones seemed to knock, knock, like boot heels on a dance floor. He had heard himself whimpering but couldn't stop, had felt tears of shame burning down his cheeks but couldn't halt the flow, had felt his bladder ready to burst from the needle prick of terror but had with heroic effort managed to refrain from wetting his pants..He shouldered past two counter waitresses, past the short-order cook who was working eggs and burgers and bacon on the open griddle and grill. Whatever expression wrenched Junior's face, it must have been intimidating, for without protest but with walled alarm, the employees squeezed aside to let him pass..As Junior was about to knock again, the door flew inward, and over Sinatra having fun with "When My Sugar Walks Down the Street," Victoria said, "You're early, I didn't hear your car--" She was speaking as she pulled the door open, and she cut herself off in midsentence When she stepped up to the threshold and saw who stood before her..pistol that he'd purchased in late June. The city operated a program to melt confiscated and donated weapons and to remake them into plowshares or xylophones, or into the metal fittings of hookah pipes..folded over his too-tight shirt collar, and with a second chin more prominent than.He said, "There's a whiteness in Barty's right pupil ... which I think indicates a growth. The distortions in his vision are still there, though somewhat different, when he closes his right eye, so that indicates a problem in the left, as well, even though I'm not able to see anything there. Dr. Chan has a full schedule tomorrow, but as a favor to me, he's going to see you before his usual office hours, first thing in the morning. You'll have to start out early."So the practice of their lore and the teaching of it had become perilous. Those who undertook it were often those already outcast, crippled, deranged, without family, old-women and men who had little to lose. The wise man and wise woman, trusted and held in reverence, gave way to the stock figures of the shuffling, impotent village sorcerer with his trickeries, the hag-witch with her potions used in aid of lust, jealousy, and malice. And a child's gift for magic became a thing to dread and hide..Once more crowding his quarry, Junior said, "I'm amazed you'd recognize me, since I haven't been to the lounge often."In the park, rocketing along on the roller coaster, Barty had an experience, a reaction to more than the canted turns and steep plunges. He grew excited in much the way that Agnes had seen him excited when grasping a new and arcane mathematical theory. At the end of the ride, he wanted to get back on immediately, and so they did. There are no long waits for the blind at amusement parks: always to the head of the line. Agnes rode twice again with him, and then Paul twice, and finally Angel accompanied him three times. This roller-coaster obsession wasn't about thrills or even

amusement. His exuberance gave way to a thoughtful silence, especially after a seagull flew within inches of his face, feathers thrumming, startling him, on the next-to-last rollick along the tracks. Thereafter, the park held little interest for him, and all he would say was that he'd thought of a new way to feel things-by which he meant all the ways things are-a fresh angle of approach to that mystery..Now, without realizing when it had happened, he had been lowered from his knees to his right side. Head elevated and tilted by one of the paramedics. So he could expel the bile, the blood, rather than choke on it..By dawn, when the intestinal paroxysms finally passed, this bold new man of adventure felt as flat and limp as road kill..Focus. Prepare to kill Bartholomew and anyone who tries to protect Bartholomew on January 12. Prepare for all contingencies..Junior discovered more tears than could have been found in ten thousand onions. His wife and his unborn baby. He had been willing to sacrifice his beloved Naomi, but maybe he would have found the cost too high if he had known that he was also sacrificing his first-conceived child. This was too much. He was bereft..A floor-to-ceiling bookshelf was crammed with pulp magazines that had been published throughout the 1920s, '30s, and '40s, before paperback books supplanted them. The All-Story, Mammoth Adventure, Nickel Western, The Black Mask, Detective Fiction Weekly, Spicy Mystery, Weird Tales, Amazing Stories, Astounding Stories, The Shadow, Doc Savage, G-8 and His Battle Aces, Mysterious Wu Fang ...From San Francisco south to Orange County Airport on a crowded commuter flight, then farther south along the coast by rental car, Paul Damascus brought Grace, Celestina, and Angel to the Lampion house. "Before we go to my place, there's someone I very much want you to meet. She's not expecting us, but I'm sure it'll be okay." A stab of horror punctured Celestina as she failed to repress a mental image of a carnival-sideshow monster, half dragon and half insect, coiled in her sister's womb. She hated the rapist's child but was appalled by her hatred, for the baby was blameless..Vanadium hadn't seen the man who had clubbed him from behind and who had smashed his face with a pewter candlestick, but when~ he spoke the name Enoch Cain, the quality in his eyes was not compassion. No fingerprints had been left, no evidence in the aftermath of the fire at the Bressler house or in the Studebaker hauled from Quarry Lake..When Paul arrived with a Christmas gift, Perri was abed, wearing Chinese-red pajamas, reading Jane Austen. A clever contraption of leather straps, pulleys, and counterweights assisted her in moving her right arm more fluidly than would otherwise have been possible. A lap stand held the book, but she could tam the pages..Edom removed two of the pies from the table and put them on the counter near the ovens..On New Year's Day, the town learned that it had lost its first son in Vietnam. Agnes had known the parents all her life, and she despaired that even with her willingness to help, with all her good intentions, there was nothing she could do to ease their pain. She recalled her anguish as she'd waited to learn if Barty's eye tumors had spread along the optic nerve to his brain. The thought of her neighbors losing a child to war made her turn to Paul in the night. "Just hold me," she murmured.."And maybe," said Agnes, caught up in the speculation, "when your life comes to an end in all those many branches, what you're finally judged on is the shape and the beauty of the tree." The aging, fugitive Nazi had been replaced at the front desk by a woman with messily chopped blond hair, a brutish face, and arms that would dissuade Charles Atlas from challenging her. She changed a five-dollar bill into coins for the vending machines and snarled at him only once in strangely accented English..Posing as a counselor with Catholic Family Services, he phoned each listed Bartholomew, with a question related to his or her recent adoption. Those who expressed bafflement, and who claimed not to have adopted a child, were generally stricken from his list..Knacker, Hisscus, and Nork, all talking at once, then failing silent as if they were a single organism, then talking in rotation but interrupting one another, tried to advance their agenda..As he passed the living-room archway, he said, "Watch out for tidal waves, Uncle Jacob." This Dry Sack-assisted effort at recollection, however, brought back to him one thing in addition to all the sweet lubricious images of Seraphim naked. The voice of her father. On the tape recorder. The reverend droning on and on as Junior pinned the devout daughter to the mattress..As spectacularly busy as the not-yet-dead Jayne Mansfield, Frieda never wore a bra. In 1966, this free-swinging style was little seen. Initially, Junior didn't realize bralessness was a declaration of Frieda's liberation; he thought it meant she was a slut..Maria, after a single sip of Chardonnay, fled to the kitchen, ostensibly to check on the apricot flan that she'd brought, but in reality to press a cool and slightly damp dishtowel against her eyes..A nuclear-powered sound system blasted out the Doors, Jefferson Airplane, the Mamas and the Papas, Strawberry Alarm Clock, Country Joe and the Fish, the Lovin' Spoonful, Donovan (unfortunately), the Rolling Stones (annoyingly), and the Beatles (infuriatingly). Megatons of music crashed off the brick walls, made the many-paned metal framed windows reverberate like the drumheads in a hard-marching military band, and created simultaneously an exhilarating sense of possibility and a sense of doom, the feeling that Armageddon was coming soon but that it was going to be fun..Junior intended to pack only a single bag, leaving most of his clothes behind. He could afford a fine new wardrobe..She slipped into her shoes and stood for a moment watching his lips move as he gave thanks for his blessings and as he asked that blessings be given to others who needed them..Paul realized that the kitchen had fallen silent, that the women had turned to the two children and now stood as motionless as figures in a waxworks tableau..He had been stowed in a storeroom of one of the old palaces that Losen had appropriated. It had no window, its door was cross-grained oak barred with iron, and spells had been laid on that door that would have kept a far more experienced wizard captive. There were men of great skill and power in Losen's pay. Hound did not consider himself to be one of them. "All I have is a nose," he said. He came daily to see that Otter was recovering from his concussion and dislocated shoulder, and to talk with him. He was, as far as Otter could see, well-meaning and honest. "If you won't work for us they'll kill you," he said. "Losen can't have fellows like you on the loose. You'd better hire on while he'll take you." After taking a minute to steel himself, Junior squatted next to the dead detective..II. Otter."Will do. Check out those paintings he collects. People pay real money for them, even people who've never been in a looney bin." The cemetery had been mown for the holiday. The scent of fresh

cut grass grew more intense the longer Agnes met her son's radiant green-blue gaze, until the fragrance became exquisitely sweet..Tom Vanadium's uninflected but curiously hypnotic voice, his pensive manner, his gray eyes so beautiful in that fractured face, his air of measured melancholy, and his evident intelligence gave him a presence that was simultaneously as solid as a great mass of granite and yet otherworldly..While always Agnes held fast to hope, she knew that easy hope was usually false hope, and she didn't allow herself to speculate, even briefly, that his problem had resolved itself. Other symptoms-halos and rainbows-had disappeared for a time, only to return..you greater strength and determination than any other motive. But you should know this much.... You need to keep her safe for another reason. She's special. I don't want to explain why she's special or how I know that she is, because this isn't the time or place, not with your dad's death and Wally in the hospital and you still shaky from the attack."..He was uncharacteristically restive. His stoic nature, his long learned Jesuit philosophy regarding the acceptance of events as they unfold, and the acquired patience of a homicide detective were insufficient to prevent frustration from taking root in him. In the more than two months since Enoch Cain vanished, following the murder of Reverend White, no trace of the killer had been found. Week by week, the slender sapling of frustration had grown into a tree and then into a forest, until Tom began every morning by looking out through the tightly woven branches of impatience..Murmuring on the edge of sleep, Barty spoke to his father in all the places where Joey still lived: "Good-night, Daddy."..Agnes ran to the kitchen, where she had been working when the doorbell rang, packing boxes of groceries to be delivered with the honey-raisin pear pies that she and Jacob had baked this morning..A pang of regret pierced her, that her boy's precocity should deny him this fine fantasy, as her morose father had denied it to her. "He's real," she asserted..Mrs. Cain's little boy felt small, weak, sorry for himself, and terribly alone. The detective was still here, but his presence only aggravated Junior's sense of isolation..On hearing of Bartholomew's-and/or Celestina's-death, Neddy would be on the phone to the police, pointing them toward Junior, in twelve seconds. Maybe fourteen.."I should," Tom agreed, "but the point is this. . ." With the finesse of a magician, he allowed the salt shaker to slip out of the concealment of his palm, and stood it beside the pepper. "This is also me."..Their apartment was in a four-story Victorian house that dripped gingerbread, in the exclusive Pacific Heights district. It had been converted to apartments with deep respect for the architecture, years before Wally bought it..A Description of Earthsea..Police identified Junior as the prime suspect, and newspapers featured his photograph in most stories. They referred to him as "handsome," "dashing," "a man with movie-star good looks." He was said to be well known in San Francisco's avant-garde arts community. He got a thrill when he discovered that Sklent was quoted as calling him "a charismatic figure, a deep thinker, a man -with exquisite artistic taste so clever he could get away with murder as easily as anyone else might get away with double-parking. " "It's people like him," Sklent continued, "who confirm the view of the world that informs my painting."..The night seemed to be longer than a Martian month. Agnes dozed, fitfully, waking more than once, sweaty and shaking, from a dream in which her son was taken from her in pieces: first his eyes, then his hands, then his ears, his legs....Heinlein dreamed of traveling to far worlds. Prior to his death, John Kennedy had promised that men would walk on the moon before the end of the decade. Barty wanted nothing so grand, only to read a few stories, to lose himself in the wonderful private pleasure of books, because soon each story would be a listening experience only, no longer entirely a private journey..Somehow, Vanadium's malevolent spirit was also to blame for Junior's failure to find a new heart mate, in spite of all the women he'd been through. Undoubtedly, when Bartholomew was dead and Vanadium vanquished with him, romance and true love would bloom..Still relishing her little pretense of rejection, Victoria did not touch the rose. "What kind of woman do you think I am?"..They would have given him an antinausea medication. It most likely wasn't going to work quickly enough to save him..When Junior walked the cracked-linoleum corridor and descended the six flights of stairs to the street, he discovered that a thin drizzle was falling. The afternoon grew darker even as he turned his face to the sky, and the cold, dripping city, which swaddled Bartholomew somewhere in its concrete folds, appeared not to be a beacon of culture and sophistication anymore, but a forbidding and dangerous empire, as it had never seemed to him before..Earlier, after sprinting down the fire road, he had been breathing hard when he reached his Chevy, and by the time that he'd raced to Spruce Hills, the nearest town, he had spiraled down into this strange condition. His driving became so erratic that a black-and-white had tried to pull him over, but by then he was a block from a hospital, and he didn't stop until he got there, taking the entry drive too sharply, jolting across the curb, nearly slamming into a parked car, sliding to a stop in a no-parking zone at the emergency entrance, lurching like a drunkard as he got out of the Chevy, screaming at the cop to get an ambulance..The right side of the girl's face appeared to be more strongly affected by gravity..Earlier, before leaving home, he had taken a preventive dose of paregoric. For now, at least, his bowels were quiet..Two staff members were at the front desk, when last he'd seen them, out of sight now and too far away to hear the crooning. Junior had been waiting at the doors when the library opened, and thus far he'd encountered no other patrons..Embarrassed, cold, abruptly frightened, she returned to the Old West, where night on the low desert was warm. The campfire flickereded welcomingly. John Wayne put an arm around her and said, "There are no dead husbands or dead babies here," and though he intended only to reassure her, she was overcome by misery until Shirley MacLaine took her aside for some heart-to-heart girl talk. Agnes woke again and was no longer chilled, but feverish. Her lips were cracked, her tongue rough and dry.."Do you want me to call and confirm how Vanadium was harassing you up here?" asked Magusson..Trembling and sweating, he turned his back to the view window. As he retreated from the creche, he expected the oppressive pall of fear to lift, but it grew heavier..No matter. He was a future-focused, focused man. The past is for losers. No, wait, humility is for losers. "The past is the teat that feeds those too weak to face the future." Yes, that was the line from Zedd that Junior had stitched on a needlepoint pillow..With a paper towel, Junior wiped the revolver. He dropped it on the floor beside the riddled nurse.
