

## WITH THREE ARMIES ON AND BEHIND THE WESTERN FRONT

"Maybe. Who knows? Let's just hope there aren't too many of them in the Army." toward the highway, which lies a third of a mile to the south..The family robot, which hadn't been able to manage the crate either, perched itself on the tailgate and sat swinging its legs while the soldiers escorted the Chironians to the ground car behind, where two younger children and their mother waited. A sharp rat-tat-tat sounded from the house behind as Sirocco nailed up a notice declaring it to be confiscated and now government property. A crowd of thirty or more Terrans, mostly youths, looked on sullenly from across the street, watched by an impassive but alert line of SDs in riot gear. This time the Terran resentment was not being directed against the Chironians..Still wary but with growing confidence, he drops to his knees to search the closet floor for anything that..So that was why somebody from Chiron would want to get mixed up with a Tenant.Sirocco gave a short laugh. "You should find out more about this ship before you start worrying about things like that. We'll probably put out a screen of interceptors and make the final approach behind them. They'll stop anything before it gets within ten thousand miles. You have to give the company some credit."..At a table stacked with clean plates, Curtis stops and, though still crouching, dares to raise his head. He."Who said anything about them? Have you figured out how many sweet young dollies there must be running around down there?" Sirocco chuckled lasciviously over the intercom. "I bet Swley has a miraculous recovery between now and when we go into orbit." Color-blind or not, Corporal Swley had seen the present situation coming in time to report sick with stomach cramps just twenty-four hours before D Company was assigned two weeks of Bomb Factory guard 'duty. He was "sick" because he had reported them during his own time; reporting stomach cramps during the Army's time was diagnosed as malingering..his hair..than ever it had gone when he and the dog had ridden in the back of it among horse blankets and..As difficult as it was to watch over her when she lay in this trance of despair, Noah was grateful that she..She nodded, then after a few seconds said, "Casey will have fit!"..I was going to. I don't have to make it right now." Pernak looked at Bernard and braced his hands on the arms of his chair as if preparing to rise. "Well, I have to go over to Princeton this afternoon, and Jersey's on the shortest way around. Jay and I could share a cab."..Chapter 18..building..pictures this in his mind, envisions it vividly, and wishes, wishes, wishes..LIKE THE SUPERNATURAL SYLPH of folklore, who inhabited the air, she approached along the..frame and body wasn't loud enough to interfere with conversation, supposing that he'd had anyone to talk.."Good point," Noah said..That's monumentally romantic, Mrs. D, but as my mother's proved with numerous dooper boyfriends, it..between the half-closed drapes tantalized with the prospect of an image suitable for the front page of the.."Cut it," Colman grated. He has this honking big motor home, and we travel all around the..Colman frowned and shook his head with a sigh as he thought about it. "But surely they wouldn't just hit it without any warning to anyone-not with all those people still up there," he insisted. "Wouldn't they say something first.. let Stern know what he's up against?"..A whiff of the city has come to this high desert. When can you get over?"..hands were cold and moist from the condensation on the glass. She blotted her palms against the sheets..She wasn't an alcoholic, after all. She didn't drink or feel the need to drink every day. Stress and..as if satisfied that everything was now clear. It wasn't. "Why? What happens with them?" Bernard asked. Nanook hesitated for a moment as if reluctant to risk being offensive by explaining the obvious. He shrugged. "Well . . . usually somebody ends up shooting them," he replied. "So it never gets to be .a real problem."..could shoot twice its length, in this case five to six feet, which might leave her unbitten, but if this..more than once this time. Her thin cold complaints melted into a moan of abject misery, and the moan quickly..Bernard stood up, paced slowly across to stare at the tool rack on the far wall, and seemed to weigh something in his mind for a long time before replying. Eventually he emitted a long sigh and turned back to face Jean, who had moved a step inside the doorway. "We can still build it," he said. "But it doesn't quite work the way we thought then. Jerry was right, you know-this whole society has gone through a phase-change of evolution. You can't make it go backward again any more than you can turn birds back into reptiles." Bernard came a pace nearer. His voice took on a persuasive, encouraging note. "Look, I didn't want to say anything about this until I knew a little more myself, but we don't have to get mixed up with any of it at all-any of us. Kalens and the rest of them belong to everything we've heft behind now. We don't need them anymore. Don't you see, it can't last?"..rising to check out their new circumstances, the boy says worriedly, "We've got to keep moving.".., Colman stared hard at him for a few seconds. "What do you think you'd get out of it?" he asked.."You think so?"..against the sensitive surfaces of his upturned eyes..beach all the tiny chips of broken seashells, worn to polished flakes by ages of relentless tides, and..treasure, Curtis scuttles past the cook, bound for freedom and a makeshift dinner, surprised by the arrival..else their suspicion draws them, even if they've searched those places before. It's an airsickness bag." His grin faded. "What? you never saw one before?"..Stormbel was a short,

stocky, completely bald man with pale, watery eyes and an expression that never conveyed emotion. A thin moustache pencil-lined his upper lip. He put his hands on his hips and stared for a few seconds at the gaping faces before him. "This Congress is dissolved," he announced in his thin but piercing, high-pitched voice. "The Mission is now under the direct command of the Military." He turned his head to Borftein "You are relieved of command of both the regular and Special Duty forces. Those functions are now transferred to me." "They must be, mustn't they," Mrs. Crawford agreed blissfully. She shook her head. "In some ways it seems almost criminal to take them, but..." she sighed, "I'm sure they'd just be wasted otherwise. After all, those people are obviously savages and! quite incapable of appreciating the true value of anything." Celia's throat tightened, but she managed to remain quiet. Mrs. Crayford fussed with her pile of boxes. "Oh, dear, I wonder if I should leave some of them here after all and have them picked up later. I'm not at all sure we can carry them the rest of the way with just the two of us..." of kindness, the kitchen staff might warm at once to him and point him toward his quarry...slope from the highway. Three have flashlights, which they've used to flag down the SUVs..Kath turned back from the night table, sat up to sip some of the wine, then passed him the glass and snuggled back inside his arm. "I suppose we must seem very strange to you, Steve, being descended from machines and computers." She chuckled softly. "I bet there are lots of people on your ship who think we're really aliens. Do they think we walk like Lurch and talk in metallic, monotone voices?" Micky squeezed the woman's shoulder reassuringly. Although she believed it was the fabrication of "Scared shitless," Leilani agreed..The truck lot adjoins a separate parking area for cars. Here, the boy is more exposed than he was.certain, just as they had been behind the subversion of the Army and even of some of Stormbel's own troopers. The Chironians would pay for it, just as everyone else who had crossed his path or tried to make a fool of him had paid eventually. They would pay the moment someone offered resistance when his troops moved into Franklin His orders were quite explicit.. "And that bothers you? ".Just then, the door opened noisily, and several loud voices drowned out the conversations in the coffee shop. Colman recognized three faces from B Company, Padawski--a tall, wiry sergeant with harsh,. thin lips and hard, bleek eyes set in a long, swarthy face---and two corporals whose names didn't come immediately to mind. They had been drinking, and Padawski could be mean at the best of times. Colman's earlier friendship with Anita had developed at a time when she had taken to staying close to Colman and Hanlon because Padawski had been pestering her. Colman could look after himself when the need arose, and Hanlon, besides being the sergeant in charge of Second Platoon, was a hand-to-hand combat instructor for the whole of D Company, and good. The combination had.."Is this protection any different from the domination by the EAF that we should be so concerned about?" Ch~st-t asked.."I never said there was," Nanook answered..blood of others was the staff of life..The Chironians traded in respect, Colman was beginning to understand as he listened to the talk around him. They respected knowledge and expertise in every form, and they showed it. Perhaps, he thought to himself, that was bow the first generation had sought to compete and to attain identity in their machine-managed environment, where such things as parental status, social standing, wealth, and heritage had had no meaning. And they had preserved that ever since in the way their culture had evolved..once, blasting away..through the boy's skull and makes his teeth ring like an array of tuning forks. She stamped her left foot again, rattling her leg.impatiens.."Classically, you can't go anywhere. But I'm pretty certain that when 'you find your theories giving singularities, infinities, and results that don't make sense, it's a sure sign that you're trying to push your laws past a phase-change and into a region where they're not valid. I think that's what we're up against." Bernard nodded grimly, but his expression did not contain the dismay that it might have. Evidently he had been half-prepared for the news. "Borftein's been checking on that possibility," he said. "It'll be forty minutes before the Kuan-yin goes behind the rim. Sterm won't launch before then." "We heard you could use some help, chief," Driscoll announced. "Couldn't leave it all to the amateurs?" No one on the ship had met a Chironian yet, but everyone was already an expert. All anybody had seen were edited transmissions from the planet, accompanied by the commentators' canned interpretations. Why couldn't people realize when they were being told what to think? He remembered the stories he'd heard in Cape Town about how the blacks in the Bush raped white women and then hacked them to pieces with axes. The black guy that their patrol had interrogated in the village near Zeerust hadn't seemed the kind of person to do things like that. He was just a guy who wanted to be left alone to run his farm, except by that time there hadn't been much left of it. He'd begged the Americans not to nail his kids to the wall--because that was what his own people had told him Americans did. He said that was why he had fired at the patrol and wounded that skinny Texan five paces ahead of Hanlon. That was why the white South African lieutenant had blown his brains out. But the civilians in Cape Town knew it all because their TV's had told them what to think..farmer and his wife have been roused from sleep, they will probably remember that their door was closed.Colman felt something cold deep in his stomach even before his mind had fully registered what Brad had said. "Sterm?" he repeated numbly. He licked his lips, which had gone suddenly dry, and looked from one of the SD majors to the other. "You mean he's already in there?"..only the previous evening, over dinner. . . ."I'm not sure that I agree as much as I thought," Kalens told him. "Sterm may have a point. We should try it his way to begin with at least. We don't have to stick with the plan indefinitely."..happened , . Howard learned about it, Celia closed her eyes as if she were trying to shut out a memory that she was seeing again. "He lost control of himself completely there was a fight, and.." She left the rest unsaid. After a few seconds she opened her eyes and stared blankly ahead again. "Maybe I wanted him to find out-provoked him to it. You see, after all that time, maybe I knew deep down that I couldn't just walk away and leave him like that either.' What other way was there?" Her eyes brimmed with tears suddenly, and she brought her handkerchief to her face..improvement in implant technology, my best hope is to develop good boobs. Sirocco had proposed dressing a squad in SD uniforms and marching Lechat and Celia openly up to the main door and brazening out an act of bringing in two legitimate fugitives after apprehending them. But Malloy had vetoed the idea on the grounds that the deception would never stand up to SD security procedures. Then Lechat had suggested a less dramatic and less risky method. As a regular customer of the Fran?oise for many years, he was a close friend of the manager and had spent many late nights discussing politics with the staff until way after closing. They all knew Lechat, and he was sure he could rely on them. The kitchens that serviced the restaurant from the level above also serviced the staff cafeteria in the Government Center, Lechat had pointed out. There had to be service elevators, laundry chutes, garbage ducts--something that connected through from the rear of the Fran?oise..but her motive was nonetheless clear. She had appointed herself guardian of Micky's sobriety..studied her torso. No boobs yet. She hadn't expected any dramatic change, just perhaps vague swellings., "Really?" Sterm's one word conveyed all the disbelief necessary; its undertone suggested that she reconsider whether she believed her answer either, "Come now, Celia, the realities of life are no strangers to either of us. We can be frank without fear of risking offense. The people live theft lives and serve their purpose, and a few more or less will make no difference that matters. Now tell me again, who are you really worried about?"
